

Student Internship

in

Extension Water Programs

Water Resource Restoration and Protection

**Summer 2023
College Station**

**Application Deadline
April 10, 2023**

Benefits:

- ▶ Earn 3 undergraduate “internship” credit hours + \$12/hr compensation
- ▶ Gain experience in ongoing surface water quality restoration and protection projects
- ▶ Go behind the scenes with a Watershed Coordinator, and learn methods used nationally to improve surface water quality
- ▶ Participate in occasional day trips to project/program sites
- ▶ Present to a public audience as a team member
- ▶ Develop skills necessary to produce workshops/meetings and perform effective outreach
- ▶ Aid in the coordination and delivery of summer youth activities
- ▶ Visit ag and urban BMP sites to see how they are constructed and function

Qualifications:

- Students with U3 or U4 classification as of May 30, 2023
- Willing to work up to 20 hours/week from a start date of Tuesday, May 30, 2023 to an end date of Tuesday, August 8, 2023
- Have demonstrable interest in water resource restoration and protection/management and public outreach
